

What if employees need medical treatment right away?

MedID gives them immediate access to their Medical ID Card info.

Typically, when a group like yours enrolls in health insurance, your employees may have to wait a week – or more – to get their Medical ID Cards. Thanks to MedID, that wait is over.

MedID is a mobile identification card app that gives your employees an easy way to access their health plan information as soon as your group's coverage is approved.¹ They have proof of health insurance coverage, so they can be seen sooner and avoid the hassle of not having a Medical ID Card when they need it.

MedID Features Include:

Immediate Access

Medical ID Card information as soon as your group's health insurance begins.

Information At Your Fingertips

Compatible with both iOS and Android smartphones.

Safe and Secure Access

Information is secure and compliant with HIPAA regulations.

Add Family Members and More

Add other family members – and ID Cards for Dental, Vision, or other coverage.

Prescription Drug Savings

Employees can easily compare prescription costs² to see how to get the best deal.

Schedule an In-home or In-office Physician Visit

Through our partnership with Heal.com, employees can schedule an in-office or in-home doctor visit at a cost of \$99 or less.³

How Does It Work?

Once your group's coverage is approved, your employees simply open the MedID app and register using:

- ✓ Their First and Last Name
- ✓ Home ZIP Code
- ✓ Date of Birth

Then, they enter their email address and create a password. That's all it takes to get a Medical ID Card on the spot.

Help Your Employees Avoid the Wait.

MedID

¹ Instant access to health insurance ID Card is available only to employees and family members who are covered under an employer-sponsored health insurance program from Aetna, Anthem Blue Cross, Blue Shield of California, or Health Net. The employer is required to work with a broker who offers health insurance and MedID through the Word & Brown General Agency.

² High Deductible Health Plan members may find they save money with the California Rx Card prescription support program if they need a prescription before satisfying their annual deductible.

³ Members with PPO coverage from Aetna, Anthem Blue Cross, or Blue Shield of California can schedule a Heal.com physician visit and pay only their PPO plan co-pay.
