

Tap into efficiency with the new broker app

Introducing UHC Partner Portal, built to help you manage your book of business quickly and easily – whether you're in the office, on the road or with your clients.

Where innovation meets administration

UHC Partner Portal puts a suite of administrative services at your fingertips to help simplify health benefits management. By bringing together the tools you need all in one place, the app makes it easier to stay organized and responsive throughout the day. Similar to uhceservices, it offers access to:

- **Member management** – Enroll, terminate or update membership details
- **Group viewing** – Manage your groups from anywhere
- **Billing and payments** – Access billing and payment information
- **Commissions dashboard** – Track your earnings and performance
- **Health plan ID cards** – Access and share ID cards securely
- **Progress tracker** – Monitor your group's progress during the enrollment process

The app is available to all agency members with a One Healthcare ID. Users will have the same access and permissions in the app as they currently do on uhceservices.

Expect to see additional features and functionality in the near future.

Download UHC Partner Portal

Scan the QR code or search for UHC Partner Portal in your device's app store. Sign in using your One Healthcare ID.
